

Appn. Number 10/ 729,757 (Powers et al.) GAU 3761 Amnt. C contd. 4 of 5

71. (PREVIOUSLY PRESENTED) A device as recited in claim 59 wherein said device includes cap means removably covering said dispensing outlet means.

#### REMARKS

In a phone interview with the Examiner on May 25, the Examiner stated the following changes to the claims would put the case in a condition for allowance:

1. The last clause of claim 62 should be removed from that claim and appended to claim 59.
2. Claim 60 should be canceled.

Action was taken in accordance with this guidance. Additionally, all claims previously dependent on now canceled claim 60 are made dependent on amended claim 59.

#### CONCLUSION

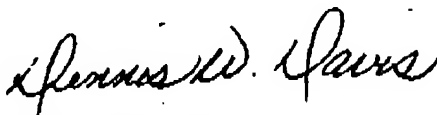

For the above reasons and in agreement with the Examiner, the applicants submit that the claims now define patentably over the prior art. Therefore they submit that this application is now in condition for allowance, which action they respectfully solicit.
